Physics 11
StartUp Document

Please read each portion of the StartUp document carefully. This document must be completed before you are fully activated in the class.

General Overview

You are going to
1. Download this document to your computer or your own Google Drive. <mark>Do NOT ask for editing privileges.</mark>
2. Open the file in Google Docs, MS Word, Pages or OpenOffice.
3. Save the file as a "doc" or "docx." If you use Pages or Open Office, you will Export As a Word document.
4. Submit the completed document into the "StartUp Assignment" folder. Do NOT submit links to your files.

Student Learning Plan

In the following table, you will see two columns beside courses. "C" stands for *Completed*, and "IP" stands for *In Progress*. Please put a checkmark in the appropriate box. For courses you have not taken yet, please leave them blank.

What grade are you currently in?					
If you are in the adult graduation program or have graduated, put an X in this box and go on to page 2. Contact your Vancouver Learning Network (VLN) counsellor if you need help determining which graduate program you are in.					
Required Courses (52 credits for graduation)					
	C	IP		C	IP
English 10 Composition (2) (or another English 10 course)			Science 11 or 12 (4)		
English 10 Literary Studies (2) (or another English 10 course)			Mathematics 10 (4) (Workplace or Foundations/Pre-Calculus)		
Literary Studies 11 or Composition 11 (4)			Mathematics 11 or 12 (4) (Workplace, Foundations or Pre-Calculus)		
English Studies 12 or English 12 First Peoples (4)			Physical and Health Education 10 (4)		
Social Studies 10 (4)			Arts Education and/or Applied Design, Skills and Technologies (4)		
Social Studies 11 or 12 (4)			Career Life Education 10 (4)		
Science 10 (4)			Career Life Connections & Capstone 12 (4)

StartUp Assignment

Scientific Notation

Do an Internet or book search to answer the following questions.

1. Why was scientific notation invented?
Answer:

2. What is an object represented by a large number?
Answer:

3. Show the large object's value in scientific notation.
Answer:

4. Show the large object's value in regular notation.

Answer:

5. What is an object represented by a small number?

Answer:

6. Show the small object's value in scientific notation.

Answer:

7. Show the small object's value in regular notation.

Answer:

8. Look through "Dr. Rozitis's Handbook." The link can be found under the Communication tab.

What did you find helpful, OR what is missing from the Handbook?

Answer:

Physics 11
StartUp Document

9. Look through the FAQ page for information about face-to-face (F2F) tests. The FAQ link is under the Communication tab.

   What did you need to do before registering and writing the F2F tests?

Answer:

10. Look through the FAQ page for information about opening Assignment folders. The FAQ link is under the Communication tab.

    What has to happen to open up the "Learning Guide - Unit 8" Assignment folder?

Answer:

Academic Integrity Student Contract

Plagiarism is presenting someone else's work as your own. Plagiarism may consist of work copied from the Internet, from another student, or work generated by Artificial Intelligence or other electronic means.

Plagiarism represents a failure of integrity. Plagiarism damages a student's character and limits the student's learning from the course.
VLN has a zero-tolerance policy on plagiarism. We use professional tools to identify plagiarized or AI-generated student submissions.

If you are caught plagiarizing course assignments or cheating on an exam, this incident will be documented in our MyEd provincial student information system. Plagiarism may result in VLN administration meetings with the

student and their parents (for school-aged students). Repeated incidents of plagiarism may result in withdrawal from the course or school.

My Pledge to Academic Integrity

Please sign and date the following agreement:

I agree that I will not attempt to plagiarize work in VLN course assignments or cheat on VLN exams. I also agree that assignments I submit that are suspected of plagiarism may be scanned, stored, and accessed by US-based servers.		
E-Signature		You can simply type in your name.
Date		

OK, I am done with the assignment. What do I do now?
- This document must be submitted as a *.doc* or *.docx* file.
- The next step is to upload it to the *StartUp Document* folder.
- The teacher will then mark your assignment, provide you with feedback, and begin opening the rest of the course. This process can take up to 5 school days.

This is the end of the document.
